## Web-Based Tracking & Reporting

The FMS data center and web application is your window into a comprehensive solution for managing your mobile assets, viewing details and reporting asset activities. With this information you can increase the efficiency, utilization, security and safety of your entire fleet. The system is 100% Web-based, accessible through any standard internet browser with NO added software or hardware to purchase.

## Capabilities

- » Most recent location
- » Complete 18 month vehicle history
- » Excessive speed reports
- » Geofence & boundary violations
- » Stop duration & idle times
- » Starter disable & enable
- » Event alerts sent to email or phone
- » Maintenance schedules & alerts
- » Engine diagnostic data
- » Detailed engine hour reporting
- » Send and receive text messages & email
- » Ignition on & off reports
- » Asset grouping
- » Landmarks
- » Distance – trip & total odometer readings; miles or kilometers
- » Define assets & drivers
- » Low battery alerts
- » Exception reporting
- » Hard brake and power take off data
- » Complete XML data export
- » Much more...

Note: Reporting capabilities vary slightly by tracking solution.

Fleet Management Solutions provides complete mobile asset tracking and management solutions, from its vehicle tracking modules to its web-based mapping software.

### FMS Technical Support & Professional Services

Client satisfaction, results and continuous return on investment begin with quality training and installation support.

FMS works closely with every client to ensure system installation and deployment is complete and on schedule.

With an online knowledge base and truly helpful documentation you may never encounter a problem you can't solve yourself. But if you do, FMS is just a phone call away.

## Real-Time Data From Anywhere, Anytime

FMS tracking modules maintain continuous GPS location, direction and speed information and combine that with vehicle performance data for complete mobile resource management. Fleet information is delivered from the vehicle via satellite, ensuring data delivery without need for cell towers and regardless of land geography. Data is received, stored and analyzed at the FMS network operations center and is accessed from the FMS hosted application, Fleet Central.

## Why Choose FMS?

Fleet Management Solutions, Inc. provides complete mobile asset tracking and management solutions to the Energy, Military, Government, Construction, Mining and Logistics industries. Solutions include vehicle tracking units, satellite airtime for data transmission, a web-hosted application for complete fleet management and professional services for successful deployment, on-going support, and quick return on investment.

» Fleet Efficiency

» Crew Monitoring

» Driver Safety
