Suction Mount Antenna

## Capabilities

- » Prevents vehicle from being started by interrupting ignition power using safe mode operation
- » Simple digital control via satellite modem using the Control Input
- » Fully supports the FMS Fleet Central mapping and reporting interface
- » Compatible with 12 and 24V systems
- » Small compact module

## Technical Specifications

<b>Ignition Source:</b>	9–35 Volts
<b>Ignition Current:</b>	20A (max)
<b>Safe Mode Operation:</b>	Ignition on first: Control Input ignored Control on first: Ignition disabled Control off: Ignition enabled
<b>Size:</b>	0.9 x 3.5 x 1.2in 2.3 x 8.9 x 3.1cm
<b>Weight:</b>	1.8oz (51g)
<b>Compatible with:</b>	12V or 24V systems
<b>Transportation Vibration Requirements:</b>	Designed to meet or exceed all SAE standards
<b>Operating Temperature:</b>	-40° to + 185°F -40° to + 85°C
<b>Control Input</b>	1.8–30V (disable ignition if ignition is off) 0–0.5V (enable ignition) 8in (20.3cm) 18 AWG twisted pair

Fleet Management Solutions provides complete mobile asset tracking and management solutions, from its vehicle tracking modules to its web-based mapping software.

### FMS Technical Support & Professional Services

Client satisfaction, results and continuous return on investment begin with quality training and installation support.

FMS works closely with every client to ensure system installation and deployment is complete and on schedule.

With an online knowledge base and truly helpful documentation you may never encounter a problem you can't solve yourself. But if you do, FMS is just a phone call away.

## Real-Time Data From Anywhere, Anytime

FMS tracking modules maintain continuous GPS location, direction and speed information and combine that with vehicle performance data for complete mobile resource management. Fleet information is delivered from the vehicle via satellite, ensuring data delivery without need for cell towers and regardless of land geography. Data is received, stored and analyzed at the FMS network operations center and is accessed from the FMS hosted application, Fleet Central.

## Why Choose FMS?

Fleet Management Solutions, Inc. provides complete mobile asset tracking and management solutions to the Energy, Military, Government, Construction, Mining and Logistics industries. Solutions include vehicle tracking units, satellite airtime for data transmission, a web-hosted application for complete fleet management and professional services for successful deployment, on-going support, and quick return on investment.
